

FCC

Our family has enjoyed listening to a National broadcast station, K-LOVE for the last several years. It has been a great benefit to my children and we would miss it terribly if we were to lose this broadcast. We have many local stations available to us, but this is the only national station which connects us to other Christian activities going on around the nation. There are activities and news broadcast on a national station like K-LOVE that you just can't get from a local station. I see so many cars in our area with a K-LOVE bumper sticker; not being able to enjoy K-LOVE would greatly impact a large number of listeners. Please don't take allow stations like K-LOVE to be taken off the air.

Thank you,  
Stefanie Hassett
